

Our policy on conflict-free minerals

EMD Technologies considers mining activities that fuel conflict as unacceptable.

EMD Technologies' purchasing process ensures that the tantalum, tin, tungsten and gold in the products it manufactures does not directly or indirectly finance or benefit armed groups that are perpetrators of serious human rights abuses.

EMD Technologies shall exercise due diligence on the source of these minerals and requests its suppliers to be DRC conflict-free and to source these minerals from certified smelters only. EMD Technologies will make its due diligence measures available to customers upon request.

EMD Technologies' efforts related to conflict minerals are aligned with the work of the Electronic Industry Citizenship Coalition (EICC®), Global e-Sustainability Initiative (GeSI) and Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (" the Dodd-Frank Act ").
